Fees, Costs, Conflicts, and Standard of Conduct

What fees will I pay?

In a private placement of securities, you do not pay any fees directly to Dorset Peak Securities LLC. Our primary revenue stream is derived from a pre-determined percentage of fees paid by the Issuer to the Firm, which is based upon the total amount of investments made by Investors, known as a “success fee.” Each Issuer determines the fees associated with each particular investment, as they differ. The fees are paid directly to the Firm.

In M&A advisory work, the Firm may be involved with multiple M&A engagements at the same time. The Firm may be paid a retainer. The client pays these fees. There are no other benefits paid to the Firm other than possible retainers and success fees. Dorset Peak Securities LLC works with multiple Issuers. The fees paid to the Firm varies by each Issuer. There is a potential conflict of interest for us to introduce you to private placements with higher fees.

Additional Information: You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. Please speak with your broker for additional information.

CONVERSATION STARTER: Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when providing recommendations? How does your firm make money and what conflicts of interest do you have?

We do not provide recommendations. The way we make money creates some conflicts with your interests. You should understand and ask about these conflicts because they can affect the services we provide you. We will provide you with the most current version of the offering materials as provided to us by the Issuer. We are making an introduction to an Issuer for a potential investment in a private placement of securities. Here is an example to help you understand what this means:

Dorset Peak Securities LLC works with multiple Issuers. The fees paid to the Firm varies by each Issuer. There is a potential conflict for us to recommend private placements with higher fees. The more commitments you make to Issuers will result in larger fees to us. Additionally, the Firm may be an investor in the same companies that we recommend to you or transact on your behalf, including Private Placements. A conflict of interest may exist by us doing so, which may materially affect your investment decision.

Additional Information: Please review the Offering Documents provided to see more detailed information about our conflicts of interest and feel free to discuss any questions with your broker.

CONVERSATION STARTER: How might your conflicts of interest affect me and how will you address them?

How do your financial professionals make money?

Our financial professionals are paid based upon the fees or percentages earned from specific engagements with Issuers/companies. There may be cases where there are discretionary bonuses, which would be based on the overall success of the Firm and each individual's performance.
